| COTONEASTER PRAECOX | | | |
| * This is one of the hardiest Cotoneasters and went through 20 degrees | | | |
| * below zero without any harm. It has large berries like cranberries | | | |
| * which color up in the middle of August and remain on until very late | | | |
| * Fall. It grows rather flat and makes an ideal plant to mix in with | | | |
| * foundation plantings and especially with ranch type houses. It also | | | |
| * makes an ideal low spreading hedge. | | | |

CONFIDENTIAL

1. The first part of the document discusses the importance of maintaining accurate records of all transactions.

2. It is essential to ensure that all data is entered correctly and that the system is regularly updated.

3. The second part of the document outlines the procedures for handling customer inquiries and complaints.

4. It is important to respond to customers promptly and to provide them with the information they need.

5. The third part of the document describes the methods for analyzing sales data and identifying trends.

6. This analysis can help the company make better decisions about its marketing and sales strategies.

7. The fourth part of the document discusses the importance of maintaining a high level of customer satisfaction.

8. This can be achieved by providing excellent service and by addressing any issues that arise.

9. The fifth part of the document outlines the procedures for handling financial matters and budgeting.

10. It is important to keep track of expenses and to ensure that the company is operating within its budget.

11. The sixth part of the document discusses the importance of maintaining accurate financial records.

12. This is essential for ensuring the company's financial health and for providing accurate information to stakeholders.

13. The seventh part of the document outlines the procedures for handling legal matters and compliance.

14. It is important to ensure that the company is following all applicable laws and regulations.

15. The eighth part of the document discusses the importance of maintaining accurate legal records.

16. This is essential for ensuring the company's legal compliance and for providing accurate information to stakeholders.

17. The ninth part of the document outlines the procedures for handling human resources matters and employee management.

18. It is important to ensure that the company is following all applicable labor laws and regulations.

19. The tenth part of the document discusses the importance of maintaining accurate human resources records.

20. This is essential for ensuring the company's human resources compliance and for providing accurate information to stakeholders.

21. The eleventh part of the document outlines the procedures for handling general administrative matters.

22. It is important to ensure that the company is following all applicable administrative procedures and regulations.

| - | RHUS COTINUS ROYAL PURPLE | - | |
| * | (New dark purple-red leaf Smokebush) | * | |
| - | There are several varieties of Purple Smokebush although Royal Purple is | - | |
| * | considered the very best. A number of varieties of Smokebush have been | * | |
| - | tried out in the nursery with Royal Purple always turning out to be the | - | |
| * | most outstanding. I am convinced of this to the extent that it is the | * | |
| - | only one now being propagated in the nursery. Royal Purple keeps its | - | |
| * | rich dark purple reddish colored foliage from Spring to late Fall. In | * | |
| - | late summer the matured leaves show a mottled edge which is a light red | - | |
| * | edge around the dark purple leaf. It is an outstanding plant in that it | * | |
| - | draws the attention of all who visit the nursery and is greatly admired | - | |
| * | for its brilliant foliage. The foliage is darker than any red Japanese | * | |
| - | maple. The plant is adaptable for use as a lawn specimen especially in | - | |
| * | locations where the Japanese Maple is not hardy. Royal Purple is the | * | |
| - | only Purple Smokebush to receive a Certificate of Merit from the Royal | - | |
| * | Horticultural Society. The branches make an excellent filler for bouquets* | * | |
| - | especially with Chrysanthemums. | - | |
| * | | * | |

Novelties

New

VIBURNUM CARLESI COMPACTA

This plant was discovered several years ago in the nursery in a block of *Viburnum carlesii*. It is slower growing and has distinct dark green shiny leaves. It grows into a very compact plant and for this reason is called *Compacta*, ideal for use in foundation plantings. It buds up very heavily when a matured plant. The size, color and fragrance of the flowers are exactly like those of *Viburnum carlesii*. This plant is a distinct novelty of which a limited quantity is offered.

HYDRANGEA PETIOLARIS

(Climbing Hydrangea) →

An attractive vine which does equally well in shade or sun. Its foliage is bold, clean and shrub-like and a rich dark green color. Short spur branches are topped with white, fragrant, *Hydrangea*-like blooms during the summer and lasts for a considerable period. Climbing *Hydrangea* is one of the finest and choicest vines grown. It clings by rootlets to walls and trees without support and can be planted against rocks for a cover.

| 1-year, pot-grown rooted cuttings from 2½-in. pots | \$0.50 | \$0.45 |

VIBURNUM WRIGHTI

Upright and grows slower than *Viburnum dilatatum*. The leaf is deeply veined and the bright red berries color up in August and remain bright red throughout the fall even after the foliage takes on a fall color. The plant is excellent for berry effect. Being slow growing makes it suitable for use in ranch-type house plantings.
